

# The Reality War Book1: The Slough of Despond

In 1992, Radlan Saravanan runs a small business out of a Tudor cottage in the sleepy English village of Elstow. But Radlan was born in 2951, and when he falls in love with a local girl, he has to choose between running from his own people and condemning his lover to die. He makes the wrong choice. Travelling into the past, falling in love... it turns out he was meant to do these things. He's been manipulated all along, but now he's slipped his handlers, and Time is no longer following the right script. Other versions of history vie for dominance, and our reality is losing. In 1992, Radlan Saravanan sparked The Reality War. The Reality War is a two-novel time travel adventure series loosely inspired by The Pilgrims Progress. It is both an action-adventure series, and a spiritual journey made by two people, mirror images of each other from rival realities.
